

# TERRO®

## Reusable - Dual Action Wasp & Fly Trap

Reutilizable - De Doble Acción Trampa Para Avispas y Moscas

**Stink-Free Bait**

**Attracts & Traps:  
Wasps, Hornets,  
Yellow Jackets, Flies**

### Directions for use:

#### **Filling the trap:**

1. Pour bagged concentrate lure into trap.
2. Add water to fill line on the trap.
3. Close the trap lid.

#### **Using the trap:**

1. Hang or place trap approximately 5 feet high in sunny area where it will not be exposed to high winds. Do not hang traps near nests. Relocate trap after 2 days if catch rate is low.
2. After 4 weeks, or when 2/3 of lure is filled with insects, empty the trap and refill. If live insects are present, close Bug Lock Lid™ and shake trap gently to immobilize insects before emptying. If lure is spilled, remove and wash contaminated clothes immediately to avoid stains.
3. Wash hands with soap and water after trap maintenance.

#### **Tips for use:**

- Wasps are not normally active at night or in early morning. Therefore, this is the best time to place and service the trap.
- Flies prefer warm, bright, calm areas.
- Will not attract beneficial pollinators, such a honey bees and bumble bees.
